4. First aid measures

4.1. Description of first aid measures

General

In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Inhalation

Remove to fresh air. Blow nose to evacuate dust.

Eyes

Flush eyes with generous quantities of water or eye rinse solution. Consult physician if irritation persists.

Skin

Use moisture renewing lotions if dryness occurs.

Ingestion

Drink generous amounts of water to reduce bulk and drying effects.

4.2. Most important symptoms and effects, both acute and delayed

Overview

Eye: May cause irritation (tear formation and redness) if dust gets in eyes.
Skin: Not absorbed by the skin, but may cause dryness if prolonged exposure.
Ingestion: Ingestion of small to moderate quantities is not considered harmful, but may cause irritation of the mouth, throat and stomach.
Inhalation: Acute inhalation can cause dryness of the nasal passage and lung congestion, coughing and general throat irritation. Chronic inhalation of dust should be avoided.

Chronic effects: Chronic inhalation of dust in excess of the Permissible Exposure Limit (PEL) established by OSHA, or the Threshold Limit Value (TLV) recommended by the American Conference of Governmental Industrial Hygienists (ACGIH) over a prolonged number of years may cause pneumoconiosis. Pneumoconiosis is a non-cancerous lung disease.

Conditions aggravated by exposure: Pre-existing diseases of the upper respiratory tract and lung such as bronchitis, emphysema and asthma.

5. Fire-fighting measures

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: No hazardous decomposition data available.

5.3. Advice for fire-fighters

None

ERG Guide No. ----

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Vacuum clean spillage, wet sweep or wash away. Avoid creating dust.

7. Handling and storage

7.1. Precautions for safe handling

Minimize dust generation. Avoid contact with eyes. Avoid breathing dust. Repair or dispose of broken bags.

7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: Hydrofluoric Acid

Store in a dry place to maintain packaging integrity and product quality. Do not store near hydrofluoric acid. Observe all label precautions and warnings.

7.3. Specific end use(s)

No data available.

8.2. Exposure controls

Respiratory	If dust is present, use respirator fitted with particulate filter.
Eyes	Goggles recommended.
Engineering Controls	Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
